Complete solutions for power generation

Project Data Sheet - Guafita - Venezuela
Petroleos De Venezuela S.A. - PDVSA, 14 MW

Equipment:	13 x Power Modules XQ1750-3516
Location:	Guafita – Venezuela
Electrical Output:	14,000 kWe
Application:	Petroleum Pumping
Operation:	Base Load, 24 Hours/day
Fuel:	Diesel
Contract Period:	3 Years
Installation:	December 1998

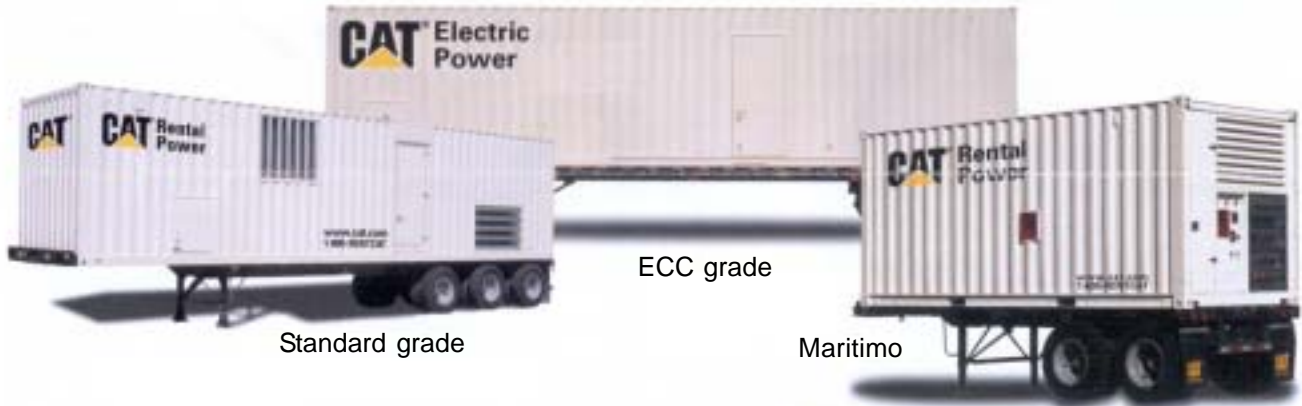

Energy International, Inc.

1983 NW 88th Court, Suite 304, Miami, FL 33172 - USA Tel.: (305) 593-5085 Fax: (305) 715-7308

Modular Power

Modular electric power generators

- EPA and EU emission certification options for mobile applications.
- Many flexible applications – prime and continuous rating, peak sharing and auxiliary power for emergencies.
- Noise control from 72 dBA to 15 meters and can be made quieter for special applications.
- Designed to be easily connected and disconnected.
- Mobil power which is easily moved to different locations.

Complete temporary power plants

- Operation & Maintenance (O&M) services
- Temporary IPP
